TONOPAH WERE STRONG YESTERDAY

PRICES ON THE UP-GRADE AND GOOD DEMAND FOR STOCKS

The glad hand is once more in evidence and the smile of the average business man is broadening. The effect of the rise in stocks has certainly had an enlivening effect and the return of good times seems to be assured.

The market for the past few days has been strong, but yesterday it was there with a rush. Tonopah Mining reached high water mark when it touched \$8 bid, an advance in twenty-four hours of thirty points. West End was the marvel, though why it should be sold at the present low price is a mystery. It opened Monday at 27 cents and yesterday reached 40 cents bid. The sales of Montana were reported at \$1.75. Extension was 32 1/2 points stronger than yesterday. Belmont climbed to \$1.25, a few points advance over Wednesday. Pittsburg Silver Peak, \$1.17 1/2 bid, the highest price reached for some time. Round Mountain reached 88 cents.

Manager Morris of the Western Union, reported a large volume of business since the beginning of the week.

MANHATTAN ALL TO THE GOOD

ARTHUR RAYCRAFT FIRM BELIEVER IN DESTINY OF CAMP

"Manhattan is fast forging ahead," said Arthur Raycraft, who has been in the northern camp for the past eight days. "Work is being prosecuted on the various leases and with good results. Capital is coming in, not with a blare of trumpets, it is true, for your true investor wants to get the best of a bargain. Quietly and unostentatiously, several representatives of large moneyed interests have been investigating, and from their reports it is expected that their superiors will get in on the ground floor. The mills are working steadily and the camp is taking on a new lease of life. The strikes on the various leases and the opening up of new bodies of milling ore has stimulated other leases to get busy and get out the stuff. Every auto coming into the camp carries its full quota of passengers and that is in addition to the stages which are always crowded. Yes, put me down as a firm believer in the destiny of Manhattan. She will be one of the greatest producers in the state."

PERSONAL MENTION

George Wingfield returned last night to Goldfield.

Arthur Raycraft returned from Manhattan yesterday.

Sam Lindsay, county commissioner, returned to Rhyolite yesterday.

Frank Golden came over from Goldfield yesterday afternoon by auto.

George B. Thatcher left yesterday morning for Rawhide. He will be absent for several days on legal business.

Mrs. George B. Thatcher left yesterday morning for Santa Barbara, where she will spend the summer.

Mrs. Gieves, who was the first white woman in Tonopah, will leave this morning for Rawhide, where she will look over the ground preparatory to investing.

BOOM!

"BOB" EVANS' FLEET!

Going to Los Angeles to welcome the fleet? Have you reserved your berth? Better get your name on the list. The rates are low and there will be a rush. "First come, first served." See KEITH, the Ticket Agent. 4-7-71

M'CARRAN MAKES REPORT ON TRIP

FINDS MAIN STREET OF MANHATTAN IN DEPLORABLE CONDITION

The following communication was sent to the county commissioners after his visit to Round Mountain, and Manhattan:

To the Honorable Board of County Commissioners, Nye County, Nev., April 8, 1908:

Gentlemen—At the request of the grand jurors impaneled in this county by the district court, I have recently made a visit to the northern portion of this county, that is, to those sections in and about the town of Manhattan and Round Mountain, with a view of aiding that body in any investigation which they saw fit to make in those vicinities.

At both places we met with the co-operation of the citizens in the way of public meetings at which time, the citizens then and there assembled, expressed themselves as to their interests.

I found that the main street in the town of Manhattan is in a deplorable condition. I drew your attention to this some months ago. A gulch or water-way has been made through the center of the street by reason of the water pumped from the mines above the town, and also by reason of flood waters coming from melting snows in the mountains above. Some provision should be made, if it is possible, for grading the main street of the town of Manhattan and making gutters or waterways along the curbing so that this water can pass away without doing damage to the adjoining property or to the street itself. I believe that figures as to the cost of this work have been submitted to the board from the citizens of the town of Manhattan. The road immediately below the town is in a very bad condition in two places. This is due to water from the canyon above and also from the waste water escaping from the mills. The road formerly followed the lowest point of the canyon and hence is a natural water channel. This could be remedied at very slight cost by grading a road along the south side of the canyon a distance of perhaps a mile and throwing the road entirely out of the bottom of the canyon and up on high ground. There is a great deal of traffic and commerce traveling over this road and it would be to the interest of the northern portion of the county that the road be fixed. In most places it would only require grading away the sage-brush and in another place would require grading for perhaps 150 feet.

With reference to the town of Round Mountain: that community is on the verge of a boom or influx of people, and this increased population will naturally carry with it an element which will require greater police protection. Within the last month there have been two or three housebreaking cases in which property was stolen with no opportunity of overtaking the transgressor. They have now an officer deputized by the sheriff of this county whom I understand you are paying \$75 per month. The officer that has been deputized is a competent, capable and trustworthy man according to all reports I have been able to ascertain with reference to him, but the salary will not warrant him in devoting his entire time to the work of deputy sheriff. He must, in order to maintain himself, secure other employment along other lines, which naturally takes up his time and causes him to more or less neglect the work of an officer. I believe that his salary should be increased to the regular amount that you have been paying to the various deputies throughout the county and he could then be required to devote his entire time to the work of protecting the citizens and property owners in the community.

The jail at Round Mountain, at this time, is without a roof or protection overhead of any kind whatsoever. It is merely four stone walls without floor or ceiling. This should be roofed over with some material suitable for the purpose and a proper floor should be put into the building to make it a proper place for the detention of prisoners where occasion arises for detaining such.

Respectfully submitted,
P. A. McCARRAN,
District Attorney, Nye County, Nev.

AUTO PARTY WAS ENJOYABLE ONE

BUTLER THEATRE ATTACHES MAKE A QUICK TRIP TO GOLDFIELD

It was a jolly party that Colonel Sam Haas of the Butler theatre, had as his guests to Goldfield yesterday. The day was a perfect one and the time made by the auto was record-breaking.

The county officials of Esmeralda met the party just as they were entering Goldfield and invited them to inspect the county buildings, the jail included. It is said by one of the party that Sam recognized a crook behind the bars who had once attempted to steal his title—such is justice.

A wire to mine host at the Casey hotel, of the coming of the party had impelled the chef of the hostelry to furnish one of the daintiest spreads to be had. Covers were laid for six in the banquet room and the viands provided were of such a character that it would have delighted the palate of an epicure. A rapid run to this city brought to an end a trip that had not a single mishap and was enjoyed to the fullest extent.

The colonel says that a trip to Manhattan and Round Mountain is next on the tapis.

FRANK GOLDEN IS OPTIMISTIC

HE SAYS COMING YEAR IN STATE OF NEVADA WILL BE A BANNER ONE

Banker Frank Golden came over from Goldfield yesterday afternoon, where he has been looking after his various business interests. He predicts that the coming year will be a good one for Nevada. He says the change in Goldfield during the time he spent there was something startling. Leasers are preparing for work on a large scale and the apathy that seemed to have settled upon the camp has entirely disappeared and things are beginning to hum. "But, then, Tonopah looks good to me," said Mr. Golden, "the air of stability and the fact that the mines are turning out the ore and that tomorrow we shall have over \$300,000 in good hard coin paid out to the miners and mill hands is one of the most gratifying things. Everyone has money and it means trade for Tonopah merchants. Tonopah always did look good to me." Mr. Golden will be here in all likelihood for a week.

TO CARE FOR VISITING CROOKS
SAN DIEGO, Cal., April 9.—For the purpose of conferring with the local police authorities regarding the best means of suppressing crime throughout the state during the fleet celebrations, Chief of Police Biggy of San Francisco, and Detective Sergeant Murphy are in San Diego. Chief Biggy states that a number of eastern detectives will be in the state and some will follow the celebrations. He will return to the north today, but Murphy will remain.

WHAT MAKES A BANK STRONG?

In judging a bank, always remember that it is capital, surplus and undivided profits that give security to the depositor, because that money is what stands between you as a depositor and any possible shrinkage in the securities held by the bank.

PASSED UPON BY COMMISSIONERS

RECOGNIZE VALUABLE SERVICES OF TONOPAH VOLUNTEER FIRE DEPARTMENT

Among the matters passed upon by the board of county commissioners at their recent session, were the approval of the plats of the townships of Lodi-Marble, situated in Lodi valley and Jamestown, which is situated near Gold Crater.

W. S. Johnson, postmaster at Manhattan and D. McAllister, assistant postmaster at the same place were granted permits to carry concealed weapons.

The resignation of Eugene Locke as justice of the peace of Duckwater township, was accepted and R. C. Camp appointed to fill the vacancy.

The resignation of Dr. J. A. Wilkenson, county physician at Rhyolite, was accepted and Dr. Edward S. Grigsby appointed to fill the vacancy.

An engineer's license was granted to J. W. Weaver of Rhyolite.

The sum of \$50 was appropriated to repair the well at Gold Crater.

The board also granted an appropriation of a sum not to exceed \$150 for the repair of the roads in the vicinity of Round Mountain.

An ordinance was passed regulating pawnbrokers in Rhyolite.

In recognition of the valuable service of the Tonopah volunteer fire department the board voted an appropriation of \$25 per month.

MURDERED MAN'S WIFE ENDS LIFE

An unusually tragic circumstance connected with the killing of Henry M. Armstrong, which occurred at Winnemucca on the morning of March 25th, being killed by a gambler, was that the devoted wife in the far-away home in Nowata, Okla., ended her own life after she received the telegram telling of her husband's death.

The news of Mrs. Armstrong's suicide was received in a letter from the secretary of the Eagles in Nowata to the Winnemucca aerie, saying that Armstrong's body had arrived there and that there had been a double funeral, husband and wife having been buried beside each other.

No particulars of the tragic suicide of Mrs. Armstrong were given further than that she killed herself with a revolver on the same day her husband was killed, and only a short time after having sent a dispatch to Winnemucca directing that his body be shipped to Nowata.
